

What Sets Us Apart

Romanucci & Blandin is a Chicago-based national trial practice committed to fighting for victims of negligence, abuse and wrongful death. We have decades of history securing verdicts and settlements for our clients – many for millions of dollars and other record-setting awards.

Our skilled attorneys and staff handle every aspect of each case with compassion, diligence and excellence so clients can care for their loved ones and themselves in their time of need to cope with a serious injury or a personal loss. This steadfast commitment to fighting for justice around the country sets us apart from other personal injury firms.

We are the attorney of choice for many victims of negligence and wrongdoing nationwide, we are the legal partner of choice when other personal injury attorneys are creating a collaborative team, and we are an employer of choice for legal professionals. Our firm's culture is one of high performance and excellence, combined with respect for each other and our clients.

Our team of experienced personal injury attorneys have decades of experience and are highly skilled at managing personal injury cases and securing justice for the injured person or family members in many types of cases such as workplace accidents; auto accidents, truck accidents or motorcycle accidents, traumatic brain injury or spinal cord injury, a death case. We understand how to obtain medical records, review medical bills, work with insurance companies, determine who the responsible parties are, identify expert witnesses and succeed at trial or in mediation.

Our clients pay no money up front and we take personal injury or death cases on a contingent fee basis, meaning you pay nothing until your case is successful with a verdict or settlement.

Referring resources and clients say several factors differentiate Romanucci & Blandin: Our record of success, depth of experience, talented and dedicated team, tireless preparation and strategic use of communications and media to fight for the rights of those whose lives have been changed forever.

We are different from other personal injury firms in that our work does not simply stop when a verdict or settlement has been secured. Our clients' experiences often inspire us and commit resources to create change in our communities. R&B's team is involved in legislative reform efforts to bring change to the criminal justice system, police reform and environmental conditions as well as to putting an end to sex trafficking. Our attorneys and clients can be found providing testimony to lawmakers on the state and federal levels and advocating for new laws to bring positive change.

Our expertise ranges from medical malpractice and sexual abuse cases to civil rights, police misconduct and workers' compensation, making Romanucci & Blandin a valuable legal resource to individuals and groups of people who others' wrongdoing has injured.

Our practice areas include:

- Birth injuries
- Civil rights and police misconduct
- Environmental and toxic torts
- Mass torts and class actions
- Medical malpractice

- Nursing home abuse
- Premises liability
- Product liability
- Sexual abuse and hazing
- Transportation and car accidents
- Workplace injuries

Some of Our Results

Our fierce advocacy for our clients shows in our day-to-day interactions, as our team actively listens to clients' experiences, works doggedly on research, preparation and legal strategy, utilizes external communications when it is beneficial to our work and then executes in the courtroom or at the mediation table. Our results show the ways in which we have delivered justice for our clients and their communities:

- We are proud members of the legal team representing the family of George Floyd in their \$27 million civil settlement with the City of Minneapolis.
- Our team earned \$50 million for the family of a cable worker who was killed in a workplace injury.
- A \$22.3 million verdict was received for a boy whose negligent medical care resulted in the loss of a leg.
- We secured a \$12.35 million settlement for the family of a woman who died after her breast cancer was not diagnosed in a timely manner.
- \$1.4 million was earned in a settlement for a victim of sexual abuse by a priest.
- \$900,000 and campus reforms formed a comprehensive settlement for a female college athlete who suffered intimate partner violence and died by suicide.
