FIGHTING FOR ACCOUNTABILITY: NURSING HOME FALL ATTORNEYS

The nursing home abuse team at Romanucci & Blandin represents nursing home residents who have been injured at a nursing home facility, many of who have suffered injuries from falls they have sustained at the nursing home or long-term care or assisted living facility. The majority of these falls are the result of nursing home abuse or negligence.

Negligence of the nursing home staff is often the primary cause of nursing home falls. Whether the nursing home is understaffed or the residents are not being supervised appropriately, that negligence leads to many falls. Other cases of fall injuries are even more tragic since there are some falls that were caused intentionally. Accidental or intentional nursing home falls can cause back or spinal cord injuries, traumatic brain injuries (TBI) or even wrongful death.
