HAZING, BULLYING AND INTIMIDATION ATTORNEYS | ROMANUCCI & BLANDIN

Hazing, bullying and intimidation are criminal offenses that can be punished by imprisonment, but a victim of such abuse can also file a civil lawsuit to recover compensation. Romanucci & Blandin has significant experience with hazing lawsuits, and we are very familiar with the challenges and compassion that these cases require. We understand how to listen to people who have suffered hazing, bullying and intimidation, and our attorneys know how to bring some measure of justice to your life.

What are hazing, bullying and intimidation?

Hazing is defined as any activity that members of a group do, as a requirement for a new person to joining a group (or to maintain full status in a group) by causing humiliation, degradation, or risking emotional and/or physical harm, regardless of the person's willingness to participate.

Hazing is a complex social problem that is shaped by power dynamics operating in a group and/or organization and within a particular cultural context. It is most common on high school and college campuses but can happen in any organization.

Hazing activities are generally considered to be:

- Physically abusive
- Hazardous
- Sexually violating

Specific behaviors or activities within these categories vary widely among participants, groups and settings. Although alcohol use is common in many types of hazing, other examples of typical hazing practices include:

- Personal servitude
- Sleep deprivation
- Restrictions on personal hygiene
- Yelling and insulting new members
- Being forced to wear embarrassing or humiliating attire in public
- Consumption of vile substances or smearing of such on one's skin
- Brandings
- Physical beatings
- Binge drinking and drinking games
- Sexual simulation and sexual assault

The statistics speak to the widespread problem:

- 5 million high school students are hazed each year
- 55% of college students involved in clubs, teams and organizations experience hazing
- 40% of athletes who reported being involved in hazing behaviors report that a coach or advisor was aware of the activity and shockingly, 22% report that the coach was involved
- 2 out of 5 students say they are aware of hazing taking place on their campus. More than 1 in 5 report that they personally have witnessed hazing
- 95% of cases where students acknowledged their experience as hazing did not report the events to campus officials
- 36% of students say they would not report hazing mainly because they feel there's nobody to tell and 27% feel that adults won't handle it correctly.

It's imperative for parents and students to understand the dangers and prevalent problem of hazing. Those who observe hazing must report these incidents. Hazing is a crime that destroys team members and weakens the team/group and should never be tolerated.
