## Boeing Ethiopian Air 302 Crash

### AVIATION ACCIDENT ATTORNEYS | ROMANUCCI & BLANDIN

On March 10, 2019, Ethiopian Air flight 302 crashed just minutes after take-off from Addis Ababa Bole International Airport, killing all 157 people on board. The aircraft was a Boeing 737 Max 8, which had also been the same Boeing aircraft type involved in the fatal crash of a Lion Air flight weeks before this tragedy. Since the crash, Boeing leadership and its board of directors have come under scrutiny from federal transportation officials and other safety regulators for the engineering and development process for this aircraft.

Romanucci & Blandin represents the estates of some passengers, and our attorneys are part of the Plaintiff's Executive Committee, which leads the mass tort legal fight in this product liability case, seeking justice for those who died.
