Brain Injuries

\$1,100,000 Settlement – Motor Vehicle

A 39-year-old female sustained an open-book pelvic fracture, a right intraarticular comminuted distal radius fracture with significant dorsal comminution, extremely sital fracture fragments, a concussion, a traumatic brain injury and other injuries as a result of being hit by the left-turning defendant while operating her motorcycle - which she had been licensed to do for twenty years. Our client claimed approximately \$325,000 in past medical expenses and approximately \$40,000 in past lost wages.
